

nothing feels as good as Silk tastes™

DUBROVNIK • KORČULA • HVAR • SPLIT • ZAGREB

Dennis loves this food.
If it wasn't for a crazy craving... Silk would not exist.

Our founder was busy developing a hotel in a remote island in Croatia. As with anything to do with construction, delays and other problems occurred which required him to be posted for extended periods of time on the island.

The choice of restaurants or access to specialized food was indeed rather limited on the island. As the founder's craving for Asian food grew, an opportunity arose to take over the lease of a local restaurant. Without thinking twice, he flew over an Asian Chef, whose only mission was to create the food the founder wanted to eat.

The menu you see here, is the food our founder (Dennis) loves to eat.

Enjoy!
